

FLASH INSTALLATION MANUAL

ENGLISH

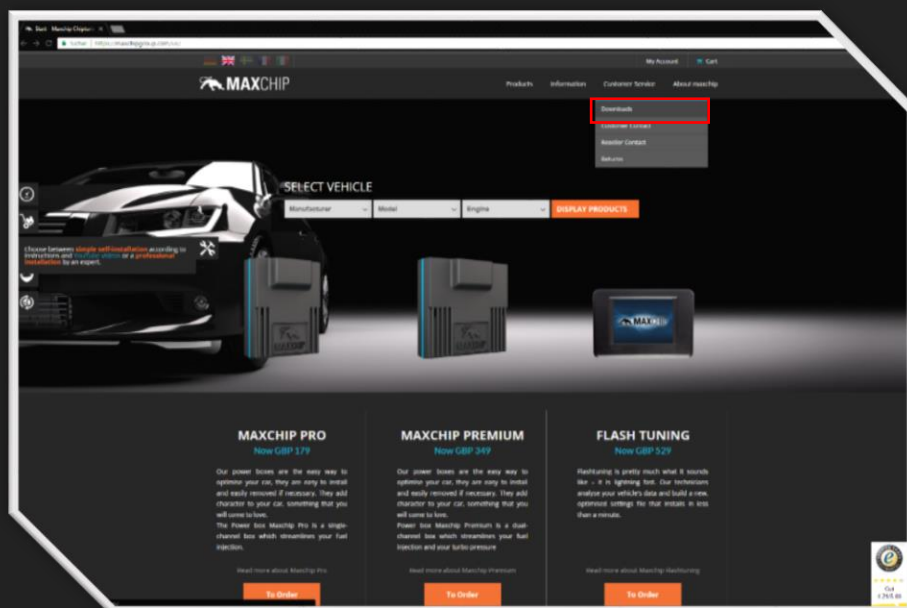

SOFTWARE AND INSTALLATION

1. Visit our page: maxchipgroup.com

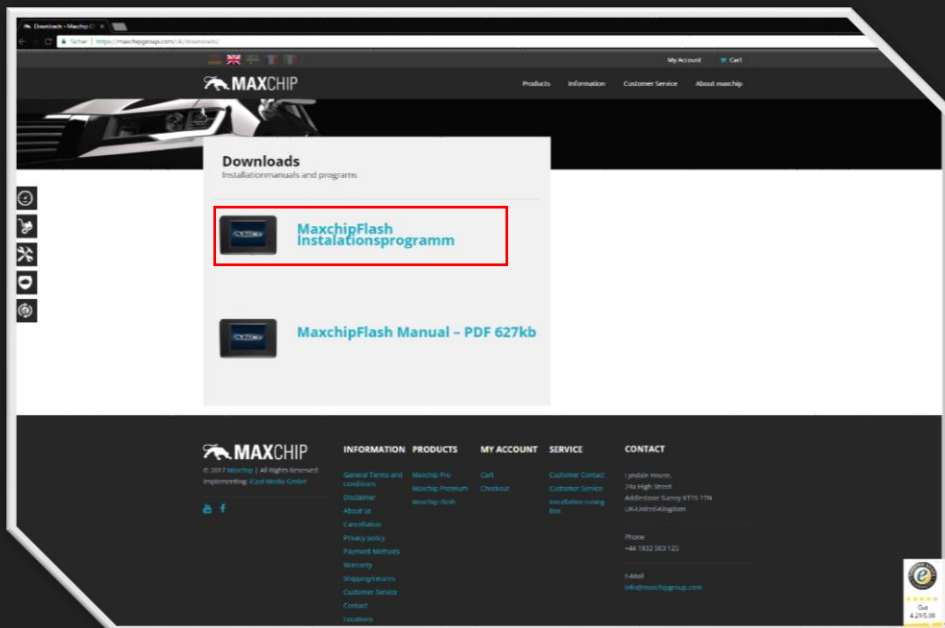

MORE POWER - LESS CONSUMPTION

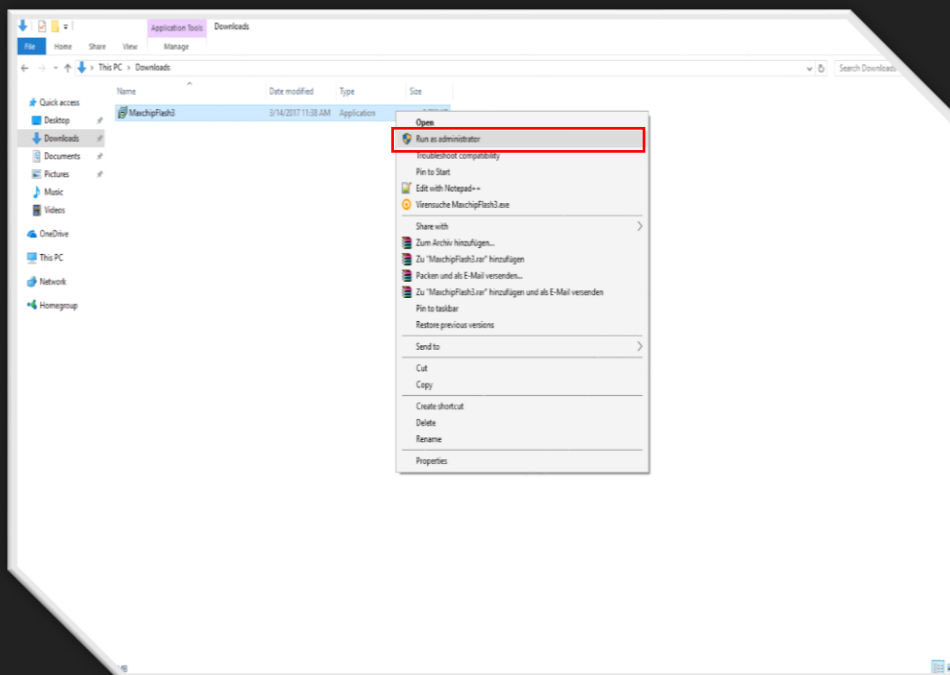

2. Click on „Customer Service“ - „Downloads“

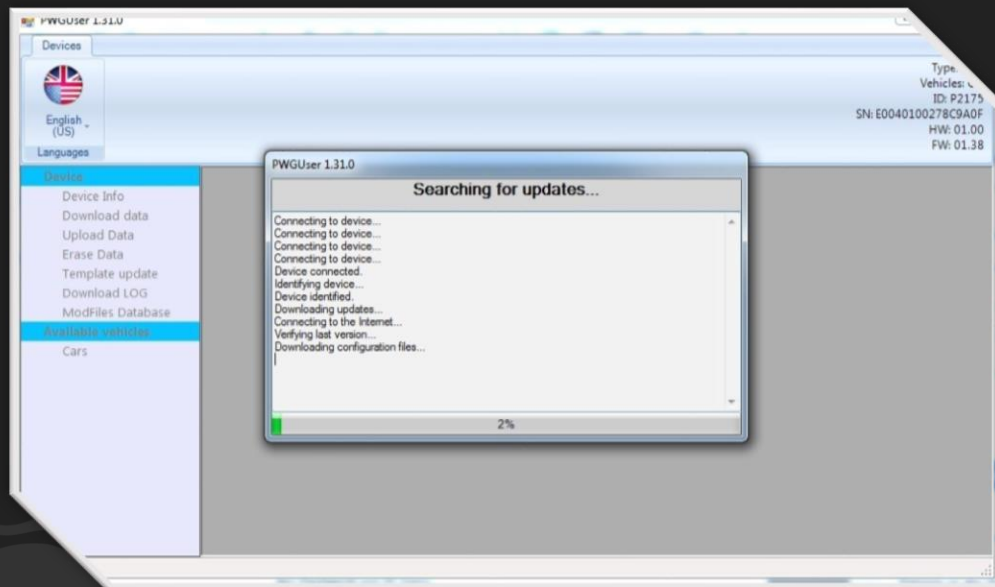

3. Choose and download „MaxchipFlash3 Installationprogramm“

4. Go to your download folder and install the program via right click and „Run as administrator“

5. Start the program and connect the Flash with your PC with the USB cable.

After the update process, disconnect the Flash and close the program.

READ THE ORIGINAL FILE

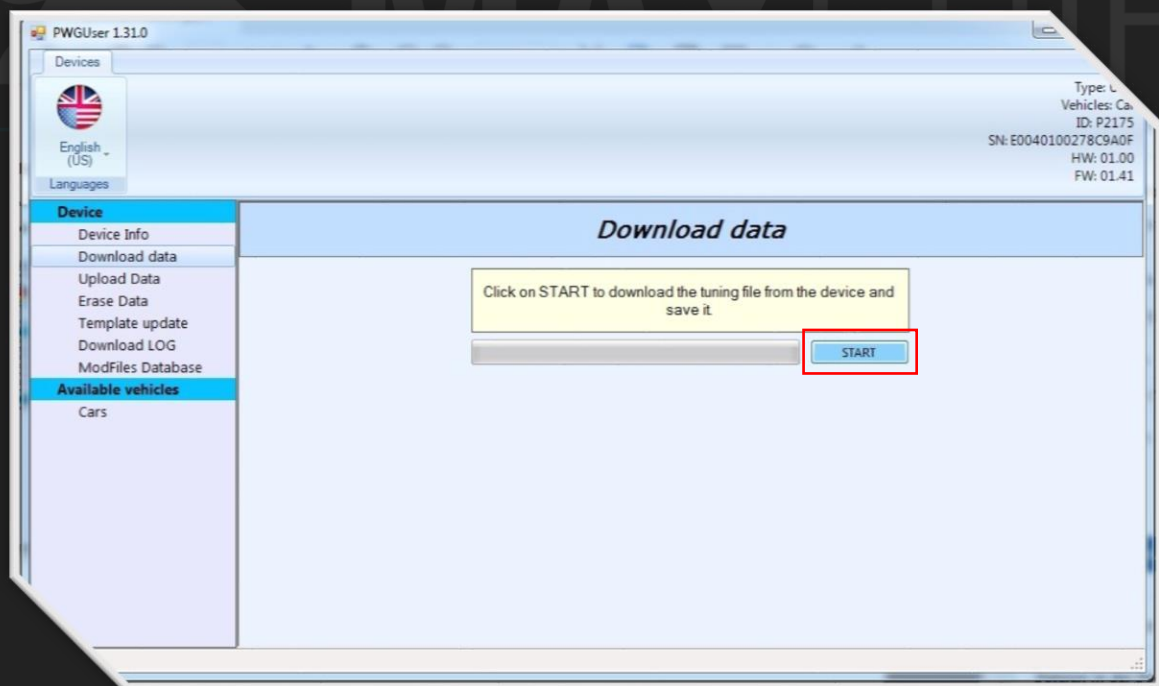

To read out the original file, follow the instructions below:

1. Connect the Flash via the OBD connector in your car.
2. Choose „Tuning“.
3. Choose the vehicle brand and click on the double arrow to continue.
4. Now choose your vehicle engine and click on the double arrow to continue. Follow the instructions on the display to read the original file from your car.
5. After reading is done, connect the Flash with your computer and send the file to us.

In the following section, we will show you how to copy your file from the Flash to your computer.

DOWNLOAD AND UPLOAD THE ORIGINAL FILE FROM YOUR FLASH

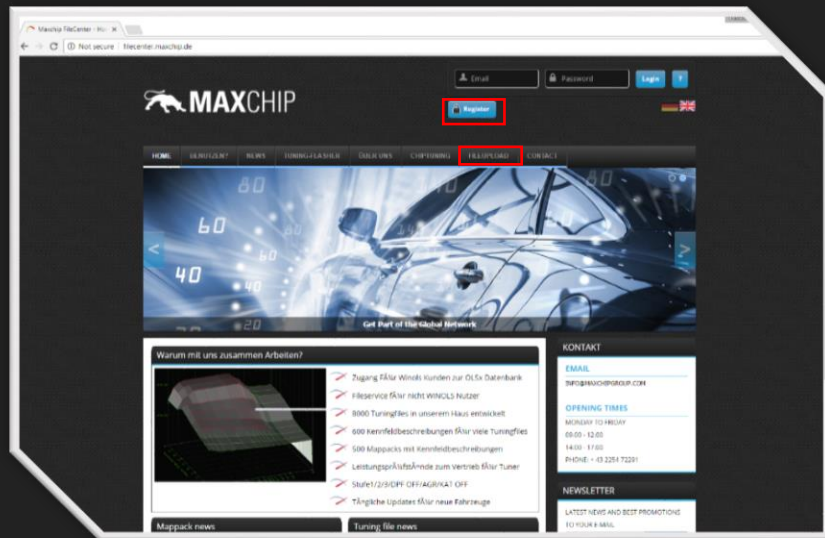

1. Run the MaxchipFlash3 Program and connect your Flash with your computer via USB.
2. Choose „File Download“
3. Save the original file to your computer.

PLEASE, DO NOT USE YOUR FLASH BEFORE YOU RECEIVE THE TUNING FILE FROM US.

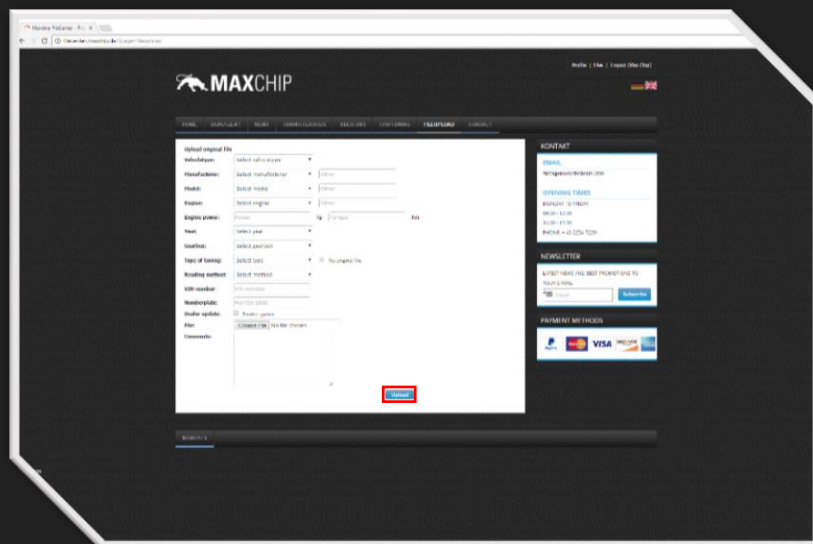

6. Go to:

filecenter.maxchip.de

7. Register an account on our page and click on „File Upload“

8. Put all your vehicle data in the text area and click on „UPLOAD“

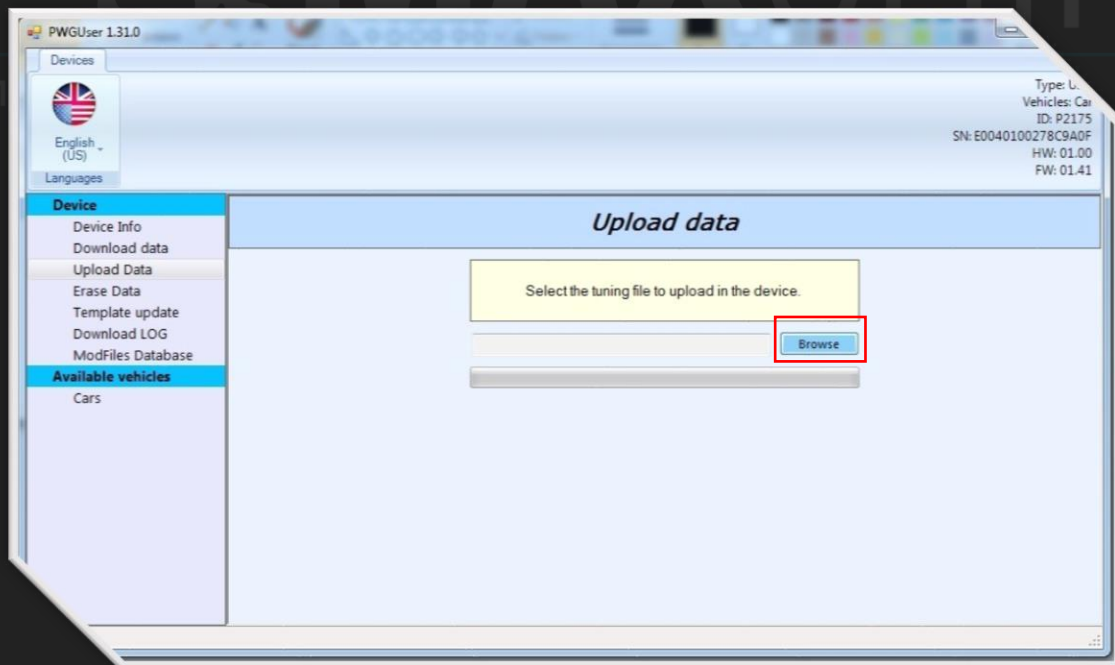

**PLEASE SEND ALWAYS THE LATEST ORIGINAL FILE.
OTHERWISE THE CODING WILL BE INCORRECT AND YOU
WON'T BE ABLE TO USE THE TUNING FILE!**

LOAD THE TUNING FILE INTO YOUR MAXCHIP FLASH

We will provide you with a tuning file within 5 workdays. When the file is ready, we will contact you via email.

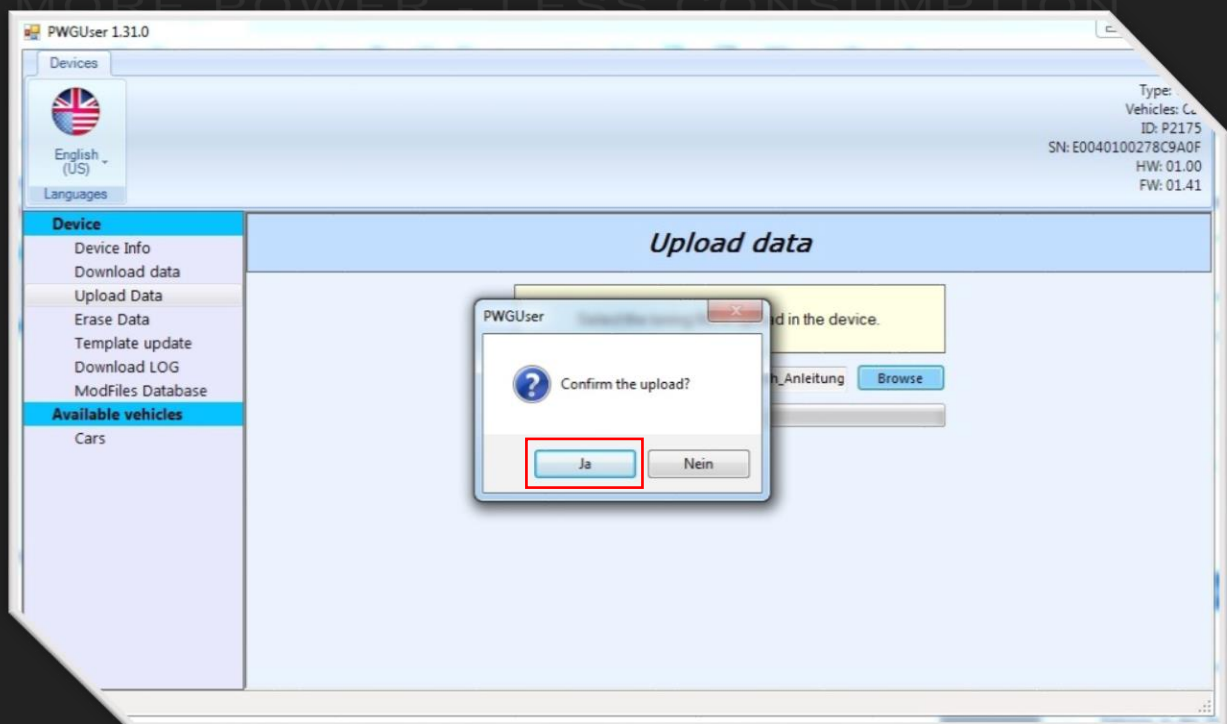

1. Save the tuning file on your computer.
2. Run the Maxchip Flash program and connect the Flash to your computer via USB cable.
3. Choose „File Upload“

4. Choose the optimized tuning file, you recieved from us.

5. Confirm the upload.

LOAD THE TUNING FILE INTO YOUR VEHICLE

1. Connect the Flash via the OBD port with your car.
2. Click on „Tuning“.
3. Follow the instruction to upload the tuning file to your car.
4. **Enjoy driving your tuned car.**

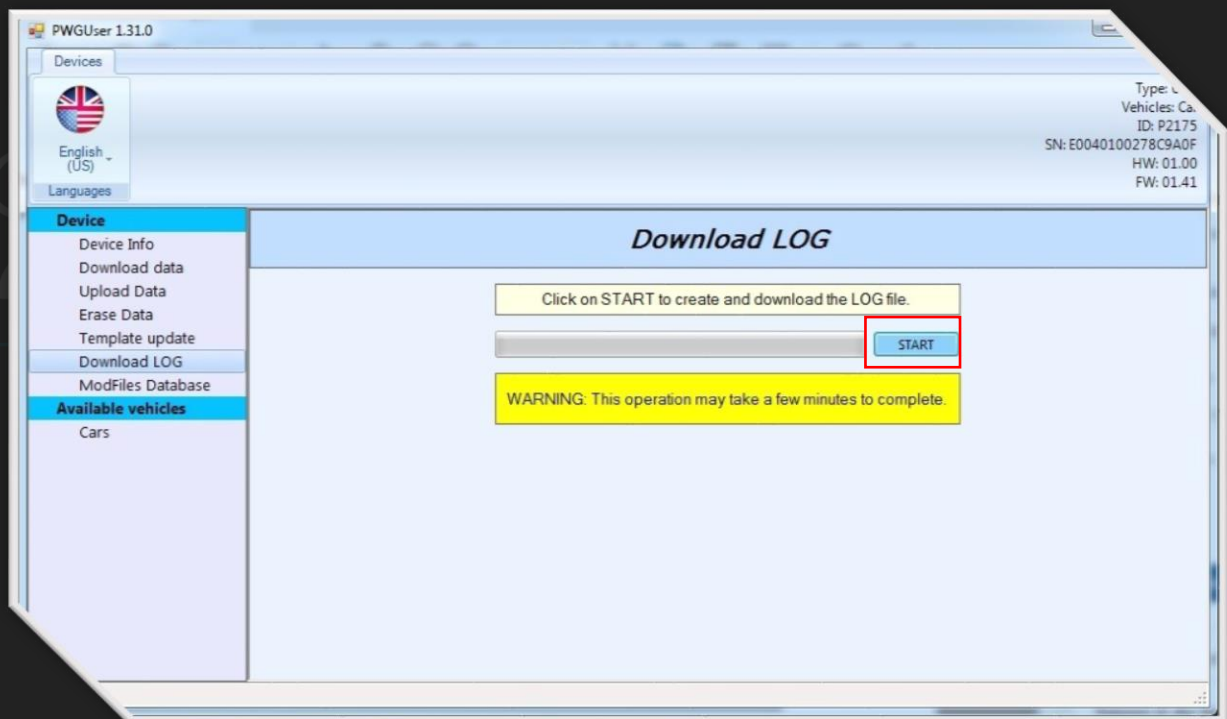

Warning: For safety purposes, while uploading the tuning file into your vehicle, you should keep your car attached to a battery charger.

If any technical issues occur or you receive an error message, please contact our support.

Please do not make any changes on your own.

IN CASE OF AN ERROR: READ THE LOG FILE

1. Start the Maxchip Flash program and connect the Flash with your computer via USB cable.
2. Choose „Download LOG“ and click on „START“.

Send the LOG file via email to our support:
